PERSONS MAKING THE SOLICITATION

This Information Circular is furnished in connection with the solicitation of proxies being made by the management of Exeter Resource Corporation (the “Company”) for use at the Annual General Meeting of the Company’s shareholders (the “Meeting”) to be held on June 9, 2011 at the time and place and for the purposes set forth in the accompanying Notice of Meeting. While it is expected that the solicitation will be made primarily by mail, proxies may be solicited personally or by telephone by directors, officers and employees of the Company at nominal cost.

All costs of this solicitation will be borne by the Company.

APPOINTMENT OF PROXIES

The individuals named in the accompanying form of proxy (the “Proxy”) are directors or officers of the Company. **A SHAREHOLDER WISHING TO APPOINT SOME OTHER PERSON OR COMPANY (WHO NEED NOT BE A SHAREHOLDER) TO ATTEND AND ACT FOR THE SHAREHOLDER AND ON THE SHAREHOLDER’S BEHALF AT THE MEETING HAS THE RIGHT TO DO SO, EITHER BY INSERTING SUCH PERSON’S OR COMPANY’S NAME IN THE BLANK SPACE PROVIDED IN THE PROXY AND STRIKING OUT THE TWO PRINTED NAMES, OR BY COMPLETING ANOTHER PROXY. A Proxy will not be valid unless it is completed, dated, signed and delivered to Computershare Investor Services Inc., of 100 University Avenue, 10th Floor, Toronto, Ontario, Canada M5J 2Y1 not less than 48 hours (excluding Saturdays, Sundays and holidays) before the time for holding the Meeting.**

NON-REGISTERED HOLDERS

Only registered shareholders or duly appointed proxyholders are permitted to vote at the Meeting. Most shareholders of the Company are “non-registered” shareholders because the shares they own are not registered in their names but are instead registered in the name of the brokerage firm, bank or trust company through which they purchased the shares. More particularly, a person is not a registered shareholder in respect of shares which are held on behalf of the person (the “**Non-Registered Holder**”) but which are registered either: (a) in the name of an intermediary (an “**Intermediary**”) that the Non-Registered Holder deals with in respect of the shares (Intermediaries include, among others, banks, trust companies, securities dealers or brokers and trustees or administrators of self-administered RRSPs, RRIFs, RESPs and similar plans); or (b) in the name of a clearing agency (such as The Canadian Depository for Securities Limited (“**CDS**”)) of which the Intermediary is a participant. In accordance with the requirements of National Instrument 54-101 of the Canadian Securities Administrators, the Company has distributed copies of the

Notice of Meeting, this Information Circular and the Proxy (collectively, the “**Meeting Materials**”) to the clearing agencies and Intermediaries for onward distribution to Non-Registered Holders.

Intermediaries are required to forward the Meeting Materials to Non-Registered Holders unless a Non-Registered Holder has waived the right to receive them. Very often, Intermediaries will use service companies to forward the Meeting Materials to Non-Registered Holders. Generally, Non-Registered Holders who have not waived the right to receive Meeting Materials will either:

- (a) be given a Proxy **which has already been signed by the Intermediary** (typically by a facsimile, stamped signature), which is restricted as to the number of shares beneficially owned by the Non-Registered Holder but which is otherwise not completed. Because the Intermediary has already signed the Proxy, the Proxy is not required to be signed by the Non-Registered Holder. In this case, the Non-Registered Holder who wishes to submit a Proxy should otherwise properly complete the Proxy and deliver it to Computershare Investor Services Inc. as provided above; or
- (b) more typically, be given a voting instruction form **which is not signed by the Intermediary**, and which, when properly completed and signed by the Non-Registered Holder and **returned to the Intermediary or its service company**, will constitute voting instructions (often called a “**proxy authorization form**”) which the Intermediary must follow. Typically, the proxy authorization form will consist of a one page pre-printed form. Sometimes, instead of the one page pre-printed form, the proxy authorization form will consist of a regular printed Proxy accompanied by a page of instructions, which contains a removable label containing a bar code and other information. In order for the Proxy to validly constitute a proxy authorization form, the Non-Registered Holder must remove the label from the instructions and affix it to the Proxy, properly complete and sign the Proxy and return it to the Intermediary or its service company in accordance with the instructions of the Intermediary or its service company.

In either case, the purpose of this procedure is to permit Non-Registered Holders to direct the voting of the shares that they beneficially own. Should a Non-Registered Holder who receives one of the above forms wish to vote at the Meeting in person, the Non-Registered Holder should strike out the names of the management proxyholders and insert the Non-Registered Holder’s name in the blank space provided. **In either case, Non-Registered Holders should carefully follow the instructions of their Intermediary, including those regarding when and where the Proxy or proxy authorization form is to be delivered.**

This Information Circular and related materials are being sent to both registered owners and Non-Registered Holders of the securities of the Company. If you are a Non-Registered Holder, and the Company or its agent has sent these materials directly to you, your name and address and information about your holdings of securities have been obtained in accordance with applicable securities regulatory requirements from the Intermediary holding on your behalf.

By choosing to send these materials to you directly, the Company (and not the Intermediary holding on your behalf) has assumed responsibility for (i) delivering these materials to you, and (ii) executing your proper voting instructions. Please return your voting instructions as specified in the request for voting instructions.

REVOCATION OF PROXIES

A shareholder who has given a Proxy may revoke it by an instrument in writing executed by the shareholder or by the shareholder's attorney authorized in writing or, if the shareholder is a corporation, by a duly authorized officer or attorney of the corporation, and delivered either to the registered office of the Company, at 2900 - 550 Burrard Street, Vancouver, British Columbia Canada V6C 0A3, at any time up to and including the last business day preceding the day of the Meeting or any adjournment of it, or in any other manner provided by law. **Only registered shareholders have the right to revoke a Proxy. Non-Registered Holders who wish to change their vote must, at least seven days before the Meeting, arrange for their respective Intermediaries to revoke the Proxy on their behalf.**

A revocation of a Proxy does not affect any matter on which a vote has been taken prior to the revocation.

EXERCISE OF DISCRETION

If the instructions in a Proxy are certain, the shares represented thereby will be voted on any poll by the persons named in the Proxy, and, where a choice with respect to any matter to be acted upon has been specified in the Proxy, the shares represented thereby will, on a poll, be voted or withheld from voting in accordance with the specifications so made.

Where no choice has been specified, or where both choices have been specified by the shareholder, such shares will, on a poll, be voted in favour in accordance with the notes to the Proxy.

If a Non-Registered Holder's Intermediary is a member of the NYSE-AMEX ("AMEX"), that member Intermediary may vote the Non-Registered Holder's Proxy at its discretion when it has: i) sent the proxy materials to the Non-Registered Holder at least fifteen days prior to the Meeting, and ii) not received voting instructions from the Non-Registered Holder at least ten days prior to the Meeting.

The enclosed Proxy, when properly completed and delivered and not revoked, confers discretionary authority upon the persons appointed proxyholders thereunder to vote with respect to any amendments or variations of matters identified in the Notice of Meeting and with respect to other matters which may properly come before the Meeting. If any amendments or variations to matters identified in the Notice of Meeting are properly brought before the Meeting or any further or other business is properly brought before the Meeting, it is the intention of the persons designated in the enclosed Proxy to vote in accordance with their best judgment on such matters or business. At the time of the printing of this Information Circular, management of the Company knows of no such amendment, variation or other matter which may be presented to the Meeting.

VOTING SECURITIES AND PRINCIPAL HOLDERS OF VOTING SECURITIES

On May 3, 2011, the Company had issued and outstanding 86,874,253 fully paid and non-assessable common shares without par value, each share carrying the right to one vote.

Any shareholder of record at the close of business on May 3, 2011 (the "**Record Date**") who either personally attends the Meeting or who has completed and delivered a Proxy in the manner specified, subject to the provisions described above, shall be entitled to vote or to have such shareholder's shares voted at the Meeting.

On a show of hands, every individual who is present and is entitled to vote as a shareholder or as a representative of one or more corporate shareholders will have one vote, and on a poll every shareholder present in person or represented by a proxy and every person who is a representative of one or more corporate shareholders, will have one vote for each common share registered in that shareholder's name on the list of

shareholders as at the Record Date, which is available for inspection during normal business hours at Computershare Investor Services Inc. and will be available at the Meeting.

To the best of the knowledge of the directors and executive officers of the Company, there are no persons who, or corporations which, beneficially own, or control or direct, directly or indirectly, shares carrying 10% or more of the voting rights attached to all outstanding shares of the Company.

CURRENCY

Unless otherwise specified, all dollar amounts presented in this Information Circular are in Canadian currency.

STATEMENT OF EXECUTIVE COMPENSATION

For the purposes of this Information Circular, “executive officer” of the Company means an individual who at any time during the year was the Chair, or a Vice-Chair or President of the Company; any Vice-President in charge of a principal business unit, division or function including sales, finance or production; and any individual who performed a policy-making function in respect of the Company.

Set out below are particulars of compensation paid to the following persons (the “**Named Executive Officers**” or “**NEOs**”):

- (a) a chief executive officer (“**CEO**”);
- (b) a chief financial officer (“**CFO**”);
- (c) each of the three most highly compensated executive officers, or the three most highly compensated individuals acting in a similar capacity, other than the CEO and CFO, at the end of the most recently completed financial year whose total compensation was, individually, more than \$150,000 for that financial year; and
- (d) any individual who would be a NEO under paragraph (c) but for the fact that the individual was neither an executive officer of the Company, nor acting in a similar capacity, at the end of that financial year.

As at December 31, 2010, the end of the most recently completed financial year of the Company, the Company had five Named Executive Officers, whose names and positions held within the Company are set out in the summary compensation table below.

Compensation Discussion and Analysis

The Company does not have a formal compensation program. However, the Compensation Committee of the board of directors (the “**Board**”) meets to discuss and determine the recommendations that it will make to the Board regarding management compensation, without reference to formal objectives, criteria or analysis. The general objectives of the Company’s compensation strategy are to (a) compensate management in a manner that encourages and rewards a high level of performance and outstanding results with a view to increasing long-term shareholder value; (b) align management’s interests with the long-term interests of shareholders; (c) provide a compensation package that is commensurate with other junior mineral exploration companies to enable the Company to attract and retain talent; and (d) ensure that the total compensation package is designed in a manner that takes into account the constraints that the Company is under by virtue of the fact that it is a junior mineral exploration company without a history of earnings.

The Compensation Committee is composed of Robert G. Reynolds, John C. Simmons and Douglas W. Scheving, all of whom are independent directors, applying the definition set out in section 1.4 of National Instrument 52-110 – Audit Committees (“**NI 52-110**”).

The Compensation Committee considers and evaluates executive compensation levels on an annual basis against available information for “peer group” companies, which are principally comprised of “junior mineral exploration” companies, to ensure that the Company’s executive compensation levels are within the range of comparable norms. In selecting peer group companies, the Compensation Committee primarily looks for public companies that are comparable in terms of business and size. In 2010, using public filings, the Compensation Committee considered the executive compensation levels, including benefits, of Detour Gold Corporation, Seabridge Gold, Osisko Mining Corporation, NovaGold Mining Corporation, Centamin Egypt Limited, Gabriel Resources Ltd., and Crystallex International Corporation.

Currently, the principal components of the Company’s executive compensation packages are base remuneration, long-term incentive in the form of stock options, and a discretionary annual incentive cash bonus. The Company targets base remuneration, bonuses, and option based awards towards an upper level relative to peer companies for similarly experienced executives performing similar duties. Generally, awards are made within this range, although compensation is awarded above or below in cases of exceptional or poor corporate and/or individual performance or other individual factors relating to a Named Executive Officer. The Company benchmarks against upper compensation because benchmarking allows the Company to attract and retain executives, provides an incentive for executives to strive for better than average performance to earn better than average compensation and helps the Company to manage the overall cost of management compensation.

While the Compensation Committee believes that it is important to use benchmarking data to assist it in determining appropriate ranges for executive compensation, it also considers other factors when awarding executive compensation, such as the overall financial strength of the Company, its exploration successes and equity financing success.

Base remuneration is used to provide the Named Executive Officers a set amount of money during the year with the expectation that each Named Executive Officer will perform his responsibilities to the best of his ability and in the best interests of the Company.

The granting of incentive stock options provides a link between management compensation and the Company’s share price. It also rewards management for achieving results that improve Company performance and thereby increase shareholder value. Stock options are generally awarded to executive officers at the commencement of employment and periodically thereafter. In making a determination as to whether a grant of long-term incentive stock options is appropriate, and if so, the number of options that should be granted,

consideration is given to: the number and terms of outstanding incentive stock options held by the Named Executive Officer; current and expected future performance of the Named Executive Officer; the potential dilution to shareholders and the cost to the Company; general industry standards and the limits imposed by the terms of the Company's stock option plan, as amended (the "**Plan**") and the Toronto Stock Exchange (the "**TSX**"). The Company considers the granting of incentive stock options to be a particularly important element of compensation as it allows the Company to reward each Named Executive Officer's efforts to increase value for shareholders without requiring the Company to use cash from its treasury. The terms and conditions of the Company's stock option grants, including vesting provisions and exercise prices, are governed by the terms of the Plan, which are described under "Incentive Plan Awards" below.

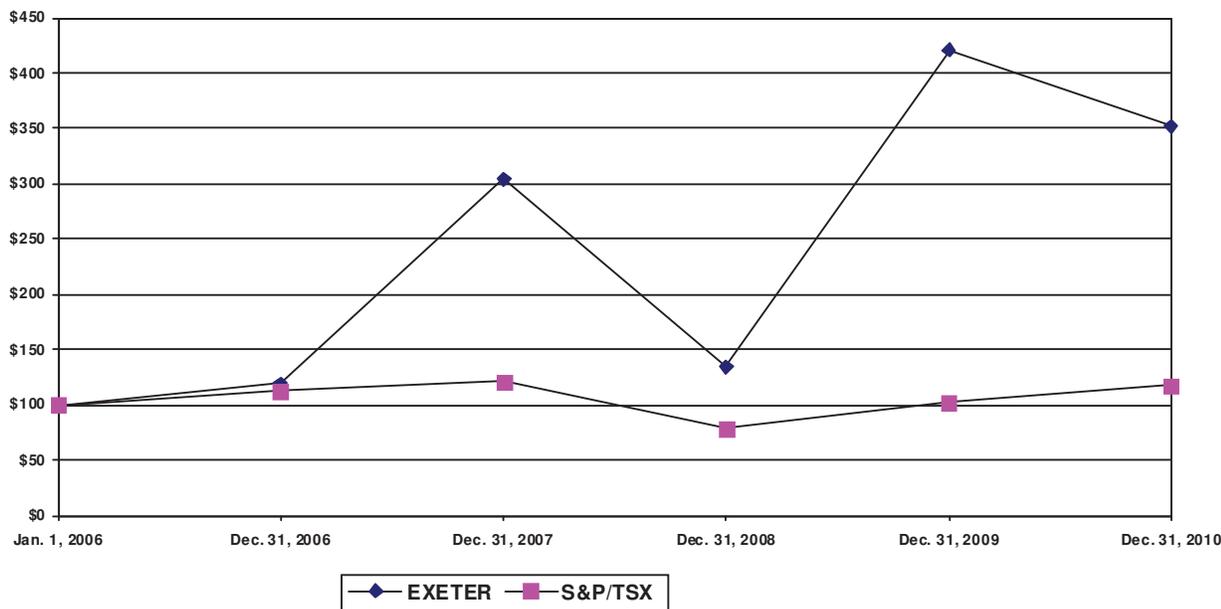

Finally, the Compensation Committee will consider whether it is appropriate and in the best interests of the Company to award a discretionary cash bonus to the Named Executive Officers and if so, in what amount. A cash bonus may be awarded to reward extraordinary performance that has led to increased value for shareholders through strategic corporate transactions, property acquisitions or divestitures, the formation of new strategic or joint venture relationships and/or capital raising efforts. Demonstrations of extraordinary personal commitment to the Company's interests, the community and the industry may also be rewarded through a cash bonus.

During the financial year ended December 31, 2010, Mr. Roxburgh, Mr. Simpson and Mr. Bond each were awarded a bonus in recognition of their respective efforts on behalf of the Company, receiving \$100,000, \$50,000, and \$75,000 respectively. Among other things, these awards were in recognition of the market success of the Company, its exploration success and the equity financings that were completed during the year.

Performance Graph

The Company graduated from the TSX Venture Exchange to the TSX on October 27, 2009. The following graph compares the total cumulative shareholder return for \$100 invested in common shares of the Company beginning on January 1, 2006 with the cumulative total return of the S&P/TSX Composite Index (“S&P/TSX”) for the five most recently completed financial years of the Company.

**Exeter Resource Corporation ("XRC")
Comparison of Five Year Total Common Shareholders' Return**

	Jan. 1, 2006	Dec. 31, 2006	Dec. 31, 2007	Dec. 31, 2008	Dec. 31, 2009	Dec. 31, 2010
Exeter Resource Corporation	\$ 100	\$119.28	\$304.45	\$134.05	\$420.89	\$352.16
S&P/TSX	\$ 100	\$112.82	\$120.90	\$78.55	\$102.66	\$117.49

The graph above, which compares “Total Common Shareholders’ Return” against the S&P / TSX over the last five years, reflects that the Company has performed significantly better than the S&P / TSX. Over the same period the Named Executive Officer cash compensation has increased in response to both competitive and retention demands and market benchmarking. This has tracked the performance of the market price of the Company’s common shares and the S&P / TSX, except for 2008, since the decrease in the Company’s share price in 2008 is primarily related to the global recession and credit crisis, rather than the performance of management. As option based awards generally track the market, in 2010 Named Executive Officer total compensation increased over 2009 and 2008, reflecting the increases in Company performance, improved markets for base and precious metals and improved markets for equity investments. In March of 2010 the Company completed a plan of arrangement whereby it transferred its Argentine mineral properties and \$25 million to Exorre Gold Mines Limited, resulting in a reduction in the Company’s market capital.

(1) The option exercise prices were reduced by 21% in accordance with the Plan of Arrangement to spin out the Argentine assets to Extorre Gold Mines Limited approved by shareholders.

(2) In-the-money options are those where the market value of the underlying securities as at the most recent financial year end exceeds the option exercise price. This amount is calculated as the difference between the market value of the securities underlying the options on December 31, 2010, being the last trading day of the Company's shares for the financial year, and the exercise price of the option. The closing market price of the Company's shares as at December 31, 2010 was \$6.20. Except for 72,500 options exercised by Mr. Roxburgh, 72,500 options exercised by Mr. Simpson and 50,000 options exercised by Mr. Bond subsequent to the year end, all with an exercise price of \$1.99, these options have not been, and may never be, exercised and actual gains, if any, on exercise will depend on the market value of the underlying securities on the date of exercise.

Subsequent to the year ended December 31, 2010, 197,500 stock options were granted to Mr. Roxburgh, 132,500 stock options were granted to Mr. Simpson, 150,000 stock options were granted to Mr. Bond and 100,000 stock options were granted to Mr. Montpellier, all of which are exercisable at \$5.00 per share until May 2, 2016.

Incentive Plan Awards – Value Vested or Earning During The Year

The following table is a summary of the value of awards vested or earned during the most recently completed financial year for the Named Executive Officers.

Name	Option-based awards – Value vested during the year (\$) ⁽¹⁾⁽²⁾	Share-based awards – Value vested during the year (\$)	Non-equity incentive plan compensation – Value earned during the year (\$)
Bryce G. Roxburgh	Nil	Nil	\$100,000 ⁽³⁾
Yale R. Simpson	Nil	Nil	\$50,000 ⁽³⁾
Cecil R. Bond	Nil	Nil	\$75,000 ⁽³⁾
S. R. Jeremy Perkins	\$422,000	Nil	\$60,000 ⁽³⁾
Louis G. Montpellier	Nil	Nil	Nil

- (1) Value vested during the year is calculated by subtracting the market price of the Company’s common shares on the date the option vested (being the closing price of the Company’s shares on the Exchange on the last trading day prior to the vesting date) from the exercise price of the option.
- (2) No options vested during the year or options vested immediately.
- (3) Discretionary bonus paid for continuing and past service.

During the year Mr. Roxburgh and Mr. Simpson each exercised 70,000 options and 200,000 options, with option exercise prices of \$0.88 and \$1.26 per option respectively; Mr. Bond exercised 40,000 options which had an option exercise price of \$1.20 per option; and Mr. Perkins exercised 100,000 options which had an option exercise price of \$1.26, 25,000 options which had an option exercise price of \$1.19 and 100,000 options which had an option exercise price of \$2.61 per option.

The Company has a stock option plan which provides for equity participation in the Company by eligible directors, officers, employees and consultants through the acquisition of common shares pursuant to the grant of options to purchase common shares. On February 5, 2010, the Board approved certain amendments to the Plan (the “**Amended Plan**”), as described below. On March 11, 2010, the shareholders approved, subject to regulatory acceptance, the Amended Plan. The purpose of the Amended Plan is to attract and retain superior directors, officers, employees, consultants and other person or companies engaged to provide ongoing services to the Company as an incentive for such persons to put forth maximum effort for the continued success and growth of the Company and in connection with these goals, to encourage their participation in the performance of the Company.

The Amended Plan is a “rolling” 15% plan whereby the aggregate maximum number of common shares available for issuance under the Amended Plan and all other security based compensation arrangements at any given time is 15% of the issued and outstanding common shares of the Company. As at the date of the Information Circular, there are options to purchase 12,976,650 shares of the Company outstanding (14.9% of the issued and outstanding shares) and 54,037 shares are available for future option awards (0.1% of the issued and outstanding shares).

The Amended Plan provides that stock options may be granted only to eligible persons (“Eligible Persons”), being directors, officers, employees, consultants, and to consultant companies (as defined in National Instrument 45-106) of the Company and any of its affiliates.

If a stock option is exercised, expires or otherwise terminates, the number of common shares in respect of such option will again be available for the purposes of the Amended Plan.

The Amended Plan may be terminated by the Board at any time, but such termination will not alter the terms or conditions of any option awarded prior to the date of such termination. Any stock option outstanding when the Amended Plan is terminated will remain in effect until it is exercised or expires or is otherwise terminated in accordance with the provisions of the Amended Plan.

The Amended Plan provides that other terms and conditions including any vesting schedule as determined by the Board may be attached to a particular stock option. Where applicable, such vesting, terms and conditions will be referred to in a schedule attached to the option certificate.

The Amended Plan provides that it is solely within the discretion of the Board to determine which Eligible Persons should receive stock options and in what amounts. The Board may issue a majority of the options to insiders of the Company. However, unless the Company has received disinterested shareholder approval, in no case will the number of common shares reserved for issuance and issuable within a one-year period to insiders, under the Amended Plan and any other security-based compensation arrangement, exceed 10% of issued and outstanding common shares.

Options awarded under the Amended Plan will be for a term not to exceed ten years from their award date. Unless the Company otherwise decides, in the event an option holder ceases to be a director, officer, consultant or employee of the Company other than by reason of death, his or her option will expire on the earlier of the expiry date stated in the option certificate (the “**Fixed Expiry Date**”) and the 90th day following termination of his or her relationship with the Company. Notwithstanding the foregoing, an option will expire immediately in the event a relationship with a director, officer, employee or consultant is terminated for cause (as such term is defined in the Amended Plan). In the event of the death of an option holder, his or her option will expire six months after the date of death or on the Fixed Expiry Date, whichever is earlier. In the event of a change of control of the Company, the Board may, in its sole discretion, deal with outstanding options in the manner it deems fair and reasonable in light of the circumstances.

The price at which an option holder may purchase a common share upon the exercise of an option will be as set forth in the option certificate issued in respect of such option and in any event will not be less than the market price of the Company’s common shares as of the date of the award of the stock option (the “**Award Date**”). The market price of the Company’s common shares for a particular Award Date would typically be the closing trading price of the Company’s common shares on the last trading day immediately preceding the Award Date and if there was no sale on the TSX on such date, then the last sale prior thereto, or otherwise in accordance with the terms of the Plan.

A stock option will be non-assignable except that it will be exercisable by the personal representative of the option holder in the event of the option holder’s death or incapacity.

Under the terms of the Amended Plan, if an option expires during a period in which a trading black-out period is imposed by the Company to restrict trades in the Company’s securities, the option will expire ten business days after the black-out period is lifted by the Company.

Subject to the policies of the TSX, the Board may, at any time, without further action by its shareholders, amend the Amended Plan or any option granted thereunder, in the following circumstances:

- (a) amendments of a “housekeeping” nature including, but not limited to, of a clerical grammatical or typographical nature;
- (b) to correct any defect, supply any information or reconcile any inconsistency in the Amended Plan in such manner and to such extent as shall be deemed necessary or advisable to carry out the purposes of the Amended Plan;
- (c) a change to the vesting provisions of any option or the Amended Plan;
- (d) amendments to reflect any changes in requirements of any regulatory body or stock exchange to which the Company is subject;
- (e) a change to the termination provisions of an option which does not result in an extension beyond the original term of the option;
- (f) in the case of any option, the substitutions and/or adjustments contemplated under the adjustment provisions of the Amended Plan;
- (g) the addition of a cashless feature, payable in cash or securities of the Company; and
- (h) a change to the class of eligible persons that may participate under the Amended Plan,

provided that, in the case of any option, no such amendment may, without the consent of the participant, materially decrease the rights or benefit accruing to such participant or materially increase the obligations of such participant. Specific disinterested shareholder approval is required for any reduction in the exercise price of an option or any extension of the term of an option for an optionee who is an insider at the time of the proposed amendment.

Subject to any required action by the shareholders and any necessary approval of the regulatory authorities, the exercise price and the number of common shares which are subject to an option may be adjusted from time to time for share dividends, in the event of arrangement, amalgamation, reclassifications, reorganizations, or changes in the capital structure of the Company, and any other change that the Board in its sole discretion, determines equitable requires and adjustment to be made.

There are no stock appreciation rights (SAR) associated with options granted under the Amended Plan and there is no provision under the Plan to transform stock options into stock appreciation rights. The Amended Plan must be approved and ratified by the shareholders of the Company every three years.

Common shares will not be issued pursuant to options granted under the Amended Plan until they have been fully paid for. The Company will not provide financial assistance to option holders to assist them in exercising their options.

Termination and Change of Control Benefits

The consulting agreements with each of Rowen and Bryce Roxburgh; 667060 and Cecil Bond; Patrocinium and Louis Montpellier and Canaust and Yale Simpson contain the following provisions. Where termination notice is given by the Company, other than for certain specified reasons, the Company will pay Rowen, 667060, Patrocinium or Canaust, as applicable, a lump sum equal to 24 times the monthly consulting fee under the agreement plus an amount equivalent to the highest annual bonus paid in the immediately preceding two years. If no such annual bonus has been paid then the deemed annual bonus will be fifty percent of the annual fee paid to the consultant. Where termination notice is delivered by either party within the 90-day period following a Change of Control, the Company will pay Rowen, 667060, Patrocinium or Canaust, as applicable, a lump sum equal to 30 times the monthly consulting fee under the agreement, plus 2 times the annual bonus or deemed annual bonus.

“**Change of Control**” is defined as:

- (i) the sale, transfer or disposition of the Company’s assets in complete liquidation or dissolution of the Company; or
- (ii) the Company amalgamates, merges or enters into a plan of arrangement with another company at arm’s length to the Company and its affiliates, other than an amalgamation, merger or plan of arrangement that would result in the voting securities of the Company outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving or resulting entity) more than 50% of the combined voting power of the surviving or resulting entity outstanding immediately after such amalgamation, merger or plan of arrangement; or
- (iii) any Person or combination of Persons at arm’s length to the Company and its affiliates acquires or becomes the beneficial owner of, directly or indirectly, more than 20% of the voting securities of the Company, whether through the acquisition of previously issued and outstanding voting securities, or of voting securities that have not been previously issued, or any combination thereof, or any other transaction having a similar effect, and such person or combination of persons exercise(s) the voting power attached to such securities in a manner that causes the Incumbent Directors to cease to constitute a majority of the Board; or
- (iv) any Person or combination of Persons at arm’s length to the Company and its affiliates acquires or becomes the beneficial owner of, directly or indirectly, more than 50% of the voting securities of the Company, whether through the acquisition of previously issued and outstanding voting securities, or of voting securities that have not been previously issued, or any combination thereof, or any other transaction having a similar effect; or
- (v) the removal, by extraordinary resolution to the shareholders of the Company, of more than 51% of the then Incumbent Directors of the Company, or the election of a majority of directors to the Board who were not nominees of the Incumbent Board at the time immediately preceding such election.

“**Incumbent Director**” means any member of the Board who was a member of the Board prior to the occurrence of the transaction, transactions or elections giving rise to a Change of Control and any successor to an Incumbent Director who was recommended or elected or appointed to succeed an Incumbent Director by the affirmative vote of a majority of the Incumbent Directors then on the Board.

“**Person**” means any individual, partnership, limited partnership, joint venture, syndicate, sole proprietorship, company or corporation with or without share capital, unincorporated association, trust, trustee, executor, administrator or other legal personal representative, regulatory body or agency, government or governmental agency or entity however designated or constituted.

Had a notice of termination been given on December 31, 2010 in the circumstances described above other than a Change of Control Rowen would have been entitled to an immediate payment of approximately \$820,000; 667060 would have been entitled to an immediate payment of approximately \$500,000; Patrocinium would have been entitled to an immediate payment of approximately \$500,000; and Canaust would have been entitled to an immediate payment of approximately \$450,000.

Had a Change of Control occurred on December 31, 2010, and the Company determined that it would act in accordance with the provisions of the contracts and where such notice of termination was given under each of the consulting agreements, Rowen would have been entitled to an immediate payment of approximately \$1,100,000; 667060 would have been entitled to an immediate payment of approximately \$700,000; Patrocinium would have been entitled to an immediate payment of \$700,000 and Canaust would have been entitled to an immediate payment of approximately \$637,500.

Director Compensation

Directors are not compensated for their services, other than through the granting of incentive stock options. The granting of incentive stock options provides a link between director compensation and the Company's share price. Stock options are generally awarded to directors when they are first elected by the shareholders or appointed by the Board and periodically thereafter. In making a determination as to whether a grant of long-term incentive stock options is appropriate, and if so, the number of options that should be granted, consideration is given to: the number and terms of outstanding incentive stock options held by the director; current and expected future contribution of the director; the potential dilution to shareholders and the cost to the Company; general industry standards; and the limits imposed by the terms of the Plan and the TSX. The Company considers the granting of incentive stock options to be a particularly important element of compensation as it allows the Company to reward each director's efforts to increase value for shareholders without requiring the Company to use cash from its treasury.

CORPORATE GOVERNANCE DISCLOSURE

The common shares of the Company are also listed on the New York Stock Exchange-Amex ("NYSE-AMEX"). A description of the significant ways in which the Company's governance practices differ from those followed by U.S. domestic companies pursuant to NYSE-AMEX standards is set forth below and is available on the Company's website, www.exeterresource.com.

Board of Directors

NI 52-110 sets out the standard for director independence. Under NI 52-110, a director is independent if he or she has no direct or indirect material relationship with the Company. A material relationship is a relationship which could, in the view of the Board, be reasonably expected to interfere with the exercise of a director's independent judgment. NI 52-110 also sets out certain situations where a director will automatically be considered to have a material relationship with the Company.

Applying the definition set out in NI 52-110, a majority of the members of the Board are independent. The members who are independent are Robert G. Reynolds, Douglas W. Scheving, John C. Simmons and Julian Bavin. Bryce G. Roxburgh, Yale R. Simpson and Louis G. As the majority of the Board is independent, matters for consideration receive full and detailed discussion. Where matters discussed may involve persons having a conflict of interest, that individual does not participate in the discussion.

The CEO reports to the Board and advises and makes recommendations to the Board. The CEO facilitates communication between the Board and other members of management and employees, and between the Company and its shareholders.

Orientation and Continuing Education

Board turnover is relatively rare. As a result, the Board provides ad hoc orientation for new directors.

On occasions where it is considered advisable, the Board will provide directors with information regarding topics of general interest, such as fiduciary duties and continuous disclosure obligations. The Board also ensures that each director is up-to-date with current information regarding the business of the Company, the role the director is expected to fulfil and basic procedures and operations of the Board. Board members are also given access to management and other employees and advisors, who can answer any questions that may arise. Regular technical presentations are made to the Board members to keep them informed of the Company's operations.

Ethical Business Conduct

The Board has adopted a written Code of Business Conduct and Ethics (the "**Code**") for its directors, officers and employees. The Company is committed to the highest standards of legal and ethical business conduct. This Code summarizes the legal, ethical and regulatory standards that the Company must follow and is a reminder to directors, officers and employees, of the seriousness of this commitment. Compliance with this Code and high standards of business conduct is mandatory for every director, officer and employee of the Company. The Code will help directors, officers and employees understand what is expected of them and to carry out their responsibilities.

The Code addresses such matters as confidentiality of corporate information, conflicts of interest and corporate opportunities, dealing with competitors, employees conducting business with the Company, the use of corporate assets, compliance with all rules and regulations applicable to the Company's business, disclosure related matters, and reporting of violations. In addition to the requirements of the Code, directors are required to comply with the relevant provisions of the Business Corporations Act, applicable Canadian and U.S. securities laws and exchange rules and regulations regarding conflicts of interest. If a director is in a conflict of interest or potential conflict of interest as a result of a proposed contract, that director may not participate in or be permitted to hear the discussion of the matter at any meeting of directors except to disclose material facts and respond to questions. The director will not be counted in determining the presence of a quorum for purposes of the vote and will not vote on any resolution to approve the proposed contract or be present in the meeting room when the vote is taken. Compliance with the Code is a matter of discussion at the meeting of independent directors and is also a part of the Audit Committee oversight.

Board Committees

The Board has three committees: the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee. The committees and their mandates and memberships are described below.

Audit Committee

The Audit Committee meets with the CEO and CFO of the Company and the independent auditors to review and inquire into matters affecting financial reporting matters, the system of internal accounting and financial controls and procedures and the audit procedures and audit plans. The Audit Committee also recommends to the Board the independent registered public accounting firm to be appointed, subject to shareholder approval. In addition, the Audit Committee reviews and recommends to the Board for approval the annual financial

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee is composed of Julian Bavin, Robert G. Reynolds and Douglas W. Scheving, all of whom are independent directors. The Nominating and Corporate Governance Committee has no formal mandate; however, it oversees, monitors and reviews the quality and effectiveness of corporate governance best practices and disclosure policies. It reviews the composition of the Board members, on a periodic basis, makes recommendations regarding Board composition, analyzes the need for new nominees when vacancies arise and identifies and proposes new nominees who have the necessary competencies and characteristics to meet such needs.

The Board has not appointed a chair for the Nominating and Corporate Governance Committee.

Compensation Committee

The Compensation Committee is responsible for discussing and determining the recommendations that it will make to the Board regarding the CEO’s compensation, with reference to the general objectives of the Company’s compensation strategy. The Compensation Committee also makes recommendations to the Board with respect to non-CEO officer and director compensation, incentive-compensation plans and equity-based plans. The Compensation Committee reviews executive compensation disclosure before the Company publicly discloses the information. Compensation matters may also be reviewed and approved by the entire Board.

The Compensation Committee is composed of Robert G. Reynolds (Chairman), John C. Simmons and Douglas W. Scheving, all of whom are independent.

The Board has not developed a written position description for the Chairman of the Compensation Committee but considers the Chairman to be responsible for setting the tone for the committee work, ensuring that members have the information needed to do their jobs, overseeing the logistics of the Compensation Committee’s operations, reporting to the Board on the Compensation Committee’s decisions and recommendations, setting the agenda and running and maintaining the minutes of meeting of the Compensation Committee.

While the Compensation Committee has the authority to retain compensation consultants to advise the committee, no such consultants were retained since the beginning of the Company’s most recently completed financial year.

NYSE-AMEX CORPORATE GOVERNANCE

The Company's common shares are listed on the NYSE-AMEX. Section 110 of the NYSE-AMEX Company Guide permits the NYSE-AMEX to consider the laws, customs and practices of foreign issuers in relaxing certain listing criteria, and to grant exemptions from listing criteria based on these considerations. A company seeking relief under these provisions is required to provide written certification from independent local counsel that the non-complying practice is not prohibited by home country law. A description of the significant ways in which the Company's governance practices differ from those followed by domestic companies pursuant to standards is as follows:

Shareholder Meeting Quorum Requirement: The minimum requirement for a shareholder meeting is one-third of the outstanding shares of common stock. In addition, a company listed on the NYSE-AMEX is required to state its quorum requirement in its bylaws. The Company's quorum requirement is set forth in its Articles. A quorum for a meeting of shareholders of the Company is two persons who are, or who represent by proxy, shareholders who, in the aggregate, hold at least 5% of the shares entitled to be voted at the meeting.

Proxy Delivery Requirement: requires the solicitation of proxies and delivery of proxy statements for all shareholder meetings, and requires that these proxies shall be solicited pursuant to a proxy statement that conforms to SEC proxy rules. The Company is a "foreign private issuer" as defined in Rule 3b-4 under the Exchange Act, and the equity securities of the Company are accordingly exempt

from the proxy rules set forth in Sections 14(a), 14(b), 14(c) and 14(f) of the Exchange Act. The Company solicits proxies in accordance with applicable rules and regulations in Canada.

Shareholder Approval for Issuance of Shares: Section 713 of the Company Guide requires shareholder approval as a prerequisite to approval of applications to list additional shares when the additional shares will be issued in connection with a transaction involving the sale or issuance by a company of common stock (or securities convertible into or exercisable for common stock) equal to 20% or more of presently outstanding stock for less than the greater of book or market value of the stock. However, the issuance of common stock in an amount in excess of 20% of the presently outstanding stock for less than book or market value, without shareholder approval, is not prohibited under the rules of the TSX and TSX Venture Exchange (“TSX-V”) and does not constitute a default under the TSX and TSX-V rules or any applicable laws in Canada. For past transactions, the Company has followed the rules of the TSX and TSX-V and applicable laws in Canada and in future transactions, the Company may seek similar exemptions from the requirements of section 713 of the NYSE-AMEX Company Guide.

The foregoing are consistent with the laws, customs and practices in Canada.
