

For Immediate Release: NR 10 - 08

EXETER AND EXTORRE TRADING MARCH 17-24, 2010

Vancouver, March 17, 2010 – Exeter Resource Corporation (NYSE-AMEX: XRA, TSX: XRC, and Frankfurt: EXB) (“Exeter” or the “Company”) wishes to clarify trading of the shares of both Exeter and Extorre Gold Mines Ltd. (“Extorre” or “XG”) for the period March 17-24, 2010.

For Canadian Shareholders trading on the TSX

Exeter and Extorre will trade as two separate companies commencing Thursday March 18, 2010. In order to receive Extorre shares, an investor must execute a trade to purchase Exeter shares on the TSX before, and continue to hold such shares on, March 18, 2010. Specifically Exeter shares will trade “ex-distribution” on the TSX on March 18, 2010 and the record date for distribution of Extorre shares to Exeter shareholders will be March 22, 2010 (the “Record Date”).

For U.S. Shareholders

Exeter will not trade “ex-distribution” on the NYSE-AMEX until after March 23, 2010. Therefore from March 18 to March 23 Exeter will continue to trade “regular way” under the symbol “XRA”. **During this period the quoted price of XRA will likely reflect the price of “the existing Exeter” as if the split had not taken place and the XRA quote may therefore differ from the TSX quote for “XRC” during that period. If you sell your XRA share in this period you will be selling your entitlement to a share of Extorre.**

Investors are encouraged to consult with their financial advisors regarding the specific implications of buying or selling Exeter shares on the NYSE-AMEX before the distribution date.

For All Investors

Each registered Exeter shareholder on the Record Date will be deemed to have exchanged, without any action on their part, all of their Exeter shares for one new Exeter share and one new Extorre share. Existing Exeter share certificates will not need to be physically exchanged and will be deemed to be share certificates representing the new Exeter shares. Exeter shareholders who hold their Exeter shares in their brokerage accounts, including discount brokerage accounts, will have their Extorre shares automatically deposited into their accounts by their broker upon completion of the Arrangement. There will be no change in shareholders’ holdings in Exeter as a result of the Arrangement.

Each Exeter option holder and warrant holder on the Record Date will receive a new option or warrant, as applicable, for Exeter shares and for Extorre shares at an adjusted exercise price based on the volume weighted average trading price of the Exeter shares and Extorre shares for the five trading days following March 18, 2010.

Please refer to the Exeter press release dated January 19, 2010 and the Circular for more detailed information, available on SEDAR at www.sedar.com.

Safe Harbour Statement – This news release contains “forward-looking information” and “forward-looking statements” (together, the “forward-looking statements”) within the meaning of applicable securities laws and the United States Private Securities Litigation Reform Act of 1995, including in relation to the proposed Arrangement and expected future attributes and success of each of the Company and Extorre following such transaction; the anticipated Record Date for the new Exeter shares and the new Extorre shares; the expected completion date of the Arrangement, the Company’s belief as to the extent and timing of its drilling programs, various studies including engineering, environmental, infrastructure and other studies, and exploration results, budgets for its exploration programs, the potential tonnage, grades and content of deposits, timing, establishment and extent of resources estimates, potential for financing its activities, potential production from and viability of its properties, permitting submission and timing, expected cash reserves and the expected benefits of the proposed spin-out transaction. These forward-looking statements are made as of the date of this news release. Readers are cautioned not to place undue reliance on forward-looking statements, as there can be no assurance that the future circumstances, outcomes or results anticipated in or implied by such forward-looking statements will occur or that plans, intentions or expectations upon which the forward-looking statements are based will occur. While the Company has based these forward-looking statements on its expectations about future events as at the date that such statements were prepared, the statements are not a guarantee that such future events will occur and are subject to risks, uncertainties, assumptions and other factors which could cause events or outcomes to differ materially from those expressed or implied by such forward-looking statements. Such factors and assumptions include, among others, the effects of general economic conditions, the price of gold, silver and copper, changing foreign exchange rates and actions by government authorities, uncertainties associated with legal proceedings and negotiations and misjudgements in the course of preparing forward-looking information. In addition, there are known and unknown risk factors which could cause the Company’s actual results, performance or achievements to differ materially from any future results, performance or achievements expressed or implied by the forward-looking statements. Known risk factors include risks associated with the ability to obtain any necessary approvals, waivers, consents and other requirements necessary or desirable to permit or facilitate the proposed Arrangement, the risk that any applicable conditions of the proposed transaction may not be satisfied, risks associated with project development; the need for additional financing; operational risks associated with mining and mineral processing; fluctuations in metal prices; title matters; uncertainties and risks related to carrying on business in foreign countries; environmental liability claims and insurance; reliance on key personnel; the potential for conflicts of interest among certain officers, directors or promoters of the Company with certain other projects; the absence of dividends; currency fluctuations; competition; dilution; the volatility of the Company’s common share price and volume; tax consequences to U.S. investors; and other risks and uncertainties, including those described in the Company’s Annual Information Form for the financial year ended December 31, 2008, dated March 27, 2009 filed with the Canadian Securities Administrators and available at www.sedar.com. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The Company is under no obligation to update or alter any forward-looking statements except as required under applicable securities laws.

Cautionary Note to United States Investors - The information contained herein and incorporated by reference herein has been prepared in accordance with the requirements of Canadian securities laws, which differ from the requirements of United States securities laws. In particular, the term “resource” does not equate to the term “reserve”. The Securities Exchange Commission’s (the “SEC”) disclosure standards normally do not permit the inclusion of information concerning “measured mineral resources”, “indicated mineral resources” or “inferred mineral resources” or other descriptions of the amount of mineralization in mineral deposits that do not constitute “reserves” by U.S., unless such information is required to be disclosed by the law of the Company’s jurisdiction of incorporation or of a jurisdiction in which its securities are traded. U.S. investors should also understand that “inferred mineral resources” have a great amount of uncertainty as to their existence and great uncertainty as to their economic and legal feasibility. Disclosure of “contained ounces” is permitted disclosure under Canadian regulations; however, the SEC normally only permits issuers to report mineralization that does not constitute “reserves” by SEC standards as in place tonnage and grade without reference to unit measures.

NEITHER THE TSX NOR ITS REGULATION SERVICES PROVIDER (AS THAT TERM IS DEFINED IN THE POLICIES OF THE TSX EXCHANGE) ACCEPTS RESPONSIBILITY FOR THE ADEQUACY OR ACCURACY OF THIS NEWS RELEASE
